

VAIBHAV VERMA

Software Engineer | Data Structures & Algorithms | Backend & Full-Stack Development

Ayodhya, India | +91 7985589506 | vaibhav.verma.sde@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

PROFESSIONAL SUMMARY

B.Tech Computer Science student (Expected 2027) with strong foundations in Java, Data Structures & Algorithms, OOP, DBMS, and Operating Systems. Solved 320+ DSA problems on LeetCode with a focus on efficient problem solving. Hands-on experience building and deploying scalable full-stack and backend systems using Node.js, Express.js, MongoDB, and REST APIs.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python

Core CS Concepts: Data Structures & Algorithms (320+ LeetCode), Object-Oriented Programming (OOP), DBMS, Operating Systems

Backend: Node.js, Express.js, REST APIs, JWT Authentication, RBAC, Passport.js

Frontend: React.js, Next.js, HTML5, CSS3

Database: MongoDB, SQL

Cloud & Tools: AWS (EC2, S3, IAM basics), Vercel, Git, GitHub, VS Code, Postman

PROJECTS

Digital Mandi – Smart Agriculture Marketplace | Live Demo | GitHub

Mar – Apr 2026

Tech: Node.js, Express.js, MongoDB, React.js, REST APIs

- Designed and deployed a full-stack marketplace connecting farmers and traders for direct crop trading, handling end-to-end user workflows.
- Engineered scalable REST APIs for product listing, bidding, and user management, following clean architecture principles.
- Implemented a real-time bidding engine managing concurrent user interactions for transparent price discovery.
- Optimized MongoDB queries, reducing API response time by ~25% through indexing and query restructuring.

Smart Bus Booking System | Live Demo | GitHub

Jul – Nov 2025

Tech: React.js, Node.js, MongoDB, JavaScript, HTML, CSS

- Built and deployed a full-stack application with real-time booking workflows, integrating frontend and backend systems.
- Designed a scalable backend architecture with REST APIs; performed CRUD operations using MongoDB for users, bookings, and routes.
- Implemented secure form validation and optimized database queries, reducing API latency by ~30%.

Secure Student Portal & Admin Analytics System | Live Demo | GitHub

Jan – Mar 2026

Tech: Node.js, Express.js, MongoDB, Passport.js, EJS

- Implemented secure multi-role authentication (RBAC) with Passport.js and built a centralized student dashboard with activity tracking.
- Improved query performance through MongoDB indexing strategies; designed a real-time analytics module for admin monitoring.

EXPERIENCE

Full Stack Developer Intern — GLA University, Mathura

Jun – Jul 2025

- Developed responsive web interfaces using HTML, CSS, and JavaScript with dynamic DOM manipulation and robust form validation.
- Designed and integrated backend APIs for application functionality, data management, and client-server communication.
- Collaborated with team members across UI design, requirement analysis, and QA testing — shipped the Smart Bus Booking System as capstone project.

EDUCATION

B.Tech in Computer Science — GLA University, Mathura

Expected Jun 2027

Diploma in Electrical Engineering — Govt. Polytechnic Ayodhya

Sep 2023

Intermediate (Class XII) — Diamond Inter College, Rampur Bhagan, Ayodhya

Jun 2020

ACHIEVEMENTS & ACTIVITIES

- Solved 320+ DSA problems on LeetCode — demonstrates strong algorithmic thinking and computer science fundamentals.
- Attended GDG session featuring Anshaj Sharma (SDE II, Amazon) on industry engineering best practices.
- Built and deployed 3 full-stack applications using the MERN stack.
